LinkedIn: linkedin.com/in/christopherdouglaskeller

## SUMMARY

Cybersecurity devotee and experienced Nashville musician and vocal coach. Hard working learner dedicated to furthering skill sets in pentesting, network cloud services infrastructure and defense strategies. Critical thinker well-versed in analyzing problems and offering creative solutions as a leader, teacher, and student. A recent graduate of Vanderbilt University Cybersecurity Boot Camp preparing for the CompTIA Security+ certification.

## TECHNICAL SKILLS

**Programming Languages & Technologies:** Bash, Powershell

**Cybersecurity & Networking:** Metasploit, Wireshark, Splunk, Azure, Snort, Autopsy, Docker, Ansible, Kibana

## PROJECTS

**Final Project**
- Implementing alarms and thresholds determined from a previous "Red vs Blue" project that assesses multiple vulnerable virtual machines on various platforms
- Using both pentesting and analytic detection tools to get a technical and visual comprehension of attacks and putting it in a presentation form
- https://github.com/ckellermusic/CK_Cyber_Security/tree/master/Final_Project

**Red vs Blue**
- Capture The Flag by exploiting a Capstone VM and using an ELK stack server to monitor the attacks through Kibana
- Navigating through a Linux server and exploiting vulnerabilities to find flags while setting up an ELK stack server to monitor malicious activity
- https://github.com/ckellermusic/CK_Cyber_Security/tree/master/Red_Vs_Blue_Project

**Elk Stack Project**
- Cloud network monitoring system set up by configuring an ELK stack server
- Building and understanding cloud network infrastructure and data collection across multiple platforms
- https://github.com/ckellermusic/CK_Cyber_Security/tree/master/Elk_Stack_Project

## EXPERIENCE

**Owner/Vocal Coach**                                                      2012 – Present
